THE UNIVERSAL LAW OF ATTRACTION

(Part Two)

-DOREAL

We are told, also, that when we complete an experience in the world, but only when we complete an experience, that that passes along the spiritual cord into the body on one of those planets and there it becomes a permanent part of the knowing of the soul but it receives only. For that reason the ancients tell us that there are two forms of Akashic records: the complete Akashic records and the incomplete Akashic records of the material plane which are recorded upon the radiations which are emitted upon every particle of matter in the universe but that is different from the spiritual Akashic records.

Each of these spiritual planets vibrates to a different color of the spectrum. One vibrates to red, one to orange, one to yellow, one to green, one to blue, one to indigo and the seventh to violet, each vibrating to one of those colors. One is not a higher color than the other but each is merely different from the

other. Each has its purpose in the infinite plan. That is the reason that any of the colors have their place in the infinite plan. God never manifested any form of light which was evil. It is true that among the ancient Persians they had their God of evil light and their God of perfect or harmonious light but that even their God of evil must partake of the ordered light.

This light which pours forth from each of these planets is what is called the soul ray. That is, that your soul, your ego, your consciousness vibrates to one of those colors. If your body spiritual exists on the planet that is vibrating on the violet ray, your soul vibrates on that ray. If you are vibrating to the violet light that means that your soul has its body spiritual on the planet which is relative to the violet color.

That is the reason that Blavatsky says that Morya and Khoot Hoomi were twin rays, that each had their body spiritual on the same planet.

Many people have wondered how it is that certain masters are attracted to certain persons and the reason is that upon this earth the Great Gurus or Great Teachers are divided into certain divisions and those that have the work of

instructing those souls in the world, that are vibrating to the same light because there is a more perfect harmony between them than to those who are vibrating on another ray. It is true that when a soul becomes perfect in its own light, it vibrates to the white light. While we are still in a state of imperfection we are more easily drawn to the present ray. Our consciousness is expressing only in imperfection.

The ancients said, for that reason, that a great power of attractive force lies in the learning to use our own soul color, our own soul tone as it is sometimes called in the East. That soul tone is the energy, color, vibration or force that our own particular ego is vibrating to and you remember how Jesus said, "Let your eye be single and your whole body will be filled with light." That light is one which radiates perfectly from one of the seven ancient planets or the seven planets that were used as symbols to hide knowledge of the great seven spiritual primary planets.

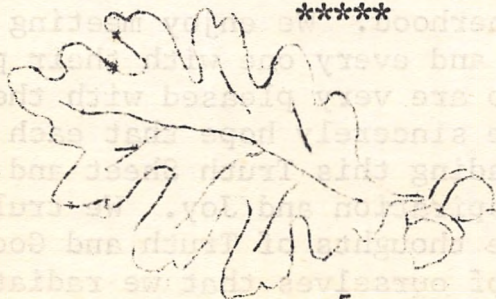

The ancient wisdom teachers tell us that if we attract to us those persons in material life who are vibrating on the same color tone as we ourselves are we will have a more perfect condition and life around us because we are attuned

inwardly as well as outwardly with those persons than if we are drawn into a circle of the opposite color vibration.

The Divine expressed itself in those seven colors so that it could manifest in this manner to fulfill its purpose. In other words, the violet is not higher than the red and yellow is not lower than violet. It is merely that it is manifesting on a different color ray for a different purpose.

The aura is created for something entirely different. This is what we call the soul tone and it can only be released with physical consciousness while the physical eyes can detect the auralic emanation. The aura vibrates on color vibration, vibrates on the infra-red ray of vibration. It may be any color but its level of vibration is of the infra-red. The eye which is sensitized can see the aura, an emanation. If you learn to bring into your objective consciousness your own soul tone you will find that conditions around you begin to change and that acts as a repulsive agent for any other condition around you and acts as a blending agent to attract the things which are harmonious to that which the Divine desires to express. The soul tone actually acts as a great attractive force if brought into manifestation.

All you have to do is relax with your eyes closed in a dark room, sit there for about five minutes before you do anything. The reason for that is that if you try to do it first the colors which have remained on the retina of the eye still remain and so you should sit about five minutes. Whatever you do, be relaxed. The only thing to be sure of is not to cross hands or feet. Then let all your attention be centered above and between the eyes. Then when you do that just think as if your consciousness is moving slowly backwards towards the back of the head. Do not try to force it. Just feel as if it were drifting back towards the back of the head and then let it move towards the front and let it rest there. Then bring into your mind the thought of the color red, then orange, then yellow, then green, of blue, of indigo, of violet. Follow the spectrum step by step. Each of those colors are a product of the splitting of the one white light. (There will be a clicking sensation in the pineal gland when you hit upon your own soul color.)

The Brotherhood Newsletter

Dear Students and Friends,

We have had another very busy week at the Office and Print Shop. We are always grateful for the many letters and reports of healing. We also have a healing and Prayer Circle for the Members who are serving in the Armed Forces. There has never been a permanent or serious injury to one who has willingly placed their name within this Circle.

Beginning with the November 2, 1969 Fellowship of the Avatar meeting, the time will change to 3:30 p.m. R.M. Standard Time. Please adjust your healing circle time accordingly for the Sunday as well as Monday and Wednesday Healing Circles. The Monday Circle remains at 9:00 p.m., but it is Standard Time. However, the Wednesday Circle changes to 7:00 p.m. Standard Time, rather than 8:00 Daylight time.

Students and friends are still visiting the Brotherhood. We enjoy meeting and helping each and every one with their problems and also are very pleased with their progress. We sincerely hope that each and every one reading this Truth Sheet and Letter will gain inspiration and Joy. We truly need to make these thoughts of Truth and Goodness such a part of ourselves that we radiate to all the world.

Last Friday one of the Brotherhood Staff members saw a large Eagle in the top of a tree about one-half mile from the Office. It was a Golden Eagle, a species common throughout mountainous regions. However, they have been sighted only a few times here in Shamballa. Its body plumage is dusky brown, and the back of the head and nape of neck are pale yellow. According to the World Book Encyclopedia these birds "Grow gray with age," and may live a century.

A very nice crowd attended the Sunday evening lecture given by Dr. Iris Rawls. Dr. Rawls continued with the series of lectures on Metaphysical Psychology, discussing methods of improving our memory. She gave 7 different ways and methods that we could use. One of the most necessary ways in developing the memory is to develop interest in the subject. Try to find some of the outstanding features and impress it on your mind. This is also discreetly choosing our thoughts rather than drifting helplessly in the thought stream which, of course, is the lazy way.

Dr. Tully's class on Monday evening was a continuation of the "Laws of Living." We must take time to see the way we may improve and use the Laws and to live Life efficiently. Everyone is invited to attend the lectures and classes.

In Truth,

The Brotherhood Staff
